

MARCH 17, 2022

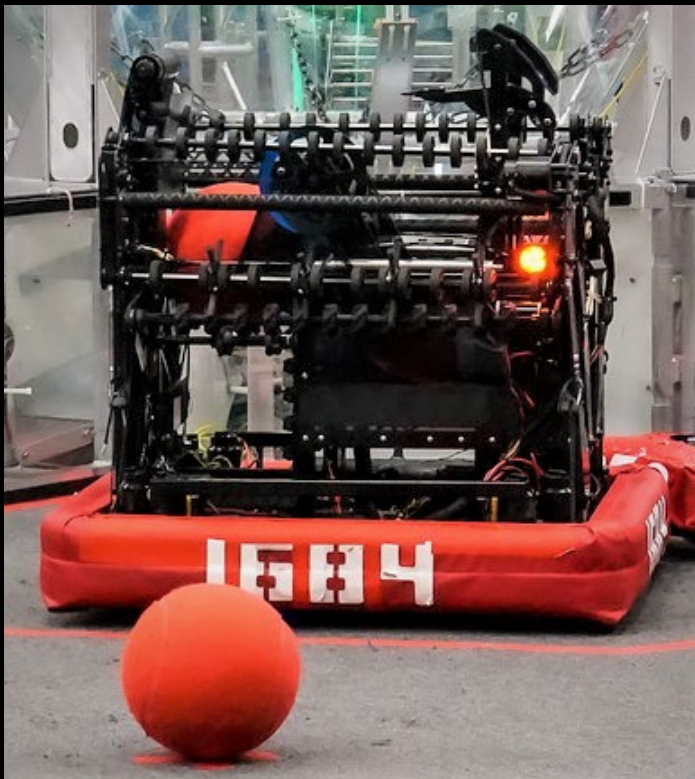

NEWS FROM THE NEST

UPDATES FROM THE CHIMERAS FRC TEAM 1684

The Chimeras are back in the nest and ready to react! A HUGE THANK YOU to all of our sponsors for helping us get back into action for the 2022 Season!

Introducing The Chimeras 2022 Competition Robot, Nyx! With a double intake system, 3-D manufactured parts, accurate shooter and a transversal climber, Nyx is sure to have an edge over the competition!

BACK IN THE NEST AND READY TO REACT

1684

#almostallblackeverything #gofasterdobetter

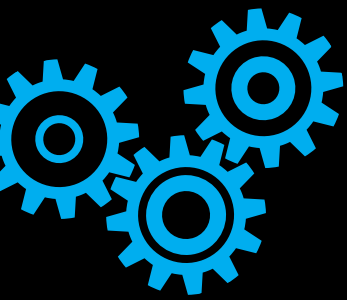

Build Season kicked off on January 8th and The Chimeras have been busy designing, building and strategizing on how to be the best of the best in FIRST's 2022 game, "Rapid React".

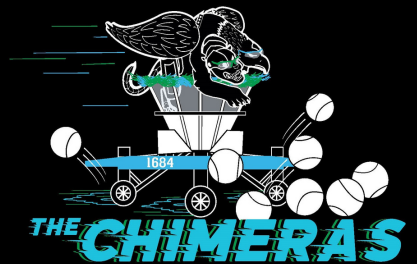

Important Dates:

- March 24-26th District Competition in Belleville
- April 13-16th State Championship at Saginaw Valley State University
- April 20-24th World Championships in Houston, TX

WHAT'S BEEN HAPPENING

Community Outreach

VEX IQ Tournaments

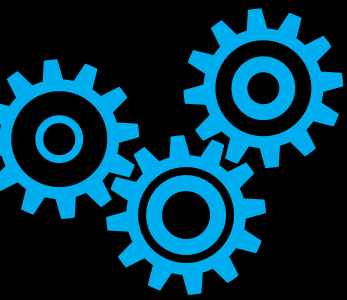

With COVID-19 restrictions easing up, The Chimeras have been back in action. During our 2022 build season, we took time out to host 3 VEX IQ tournaments. We also helped mentor the next generation, our 6 youth teams The Chimichangas!

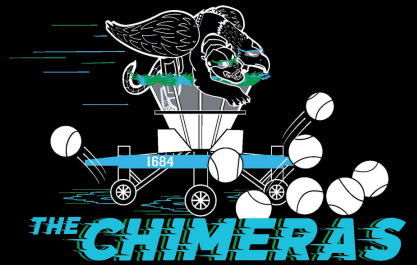

Community outreach and giving back is a huge priority for The Chimeras.

During the upcoming 2022 off season, The Chimeras' goal is to continue hosting VEX IQ tournaments as part of our community outreach project. Mentoring and giving back to our local community to promote science, technology, engineering and math with an all-inclusive attitude while extending gracious professionalism is what we strive for. If there is an outreach project your company would like for us to explore, please let us know. Thank you for continued support through the years. We are very proud to represent your company through your sponsorship!

WHAT'S BEEN HAPPENING

First District Competition of 2022

Kettering #2

On March 11th and 12th, The Chimeras traveled to Kettering University and competed in our first District competition of the season. The Chimeras were one of the Finalists and were honored with The Industrial Design Award!!! We brushed the dust off and came out strong!
