## TEAM MEAL GUIDELINES

### SIGNING UP FOR MEALS

- An online meal signup will be sent via email and posted in Slack
- **Deadline is 1/3/2018.** This is for planning purposes so we are not scrambling every weekend to find people to cover meals as it has been an issue in the past.
- If you need to switch a meal date after the deadline, please speak to Bernadette ASAP.
- Please look over what others are bringing for food and strive to provide a variety.

### GUIDELINES FOR PROVIDING MEALS

- Meals should include a main course and a side. Dessert is optional.
- Meals should serve approximately 30 people.
- Beverages besides water are allowed for meals. Note – we do not have ice at CFI or a way to keep it.
- Leftovers may be left at CFI for the team to have for later or sent home with your student. Please indicate at drop off which you will be doing.
  - If leaving leftovers for the team, please provide containers to store food in as we do not have anything at our disposal to do so.
- All serving dishes and utensils used will not be cleaned at CFI.
- It is up to you and/or your student to ensure what you bring gets back home to you.

### SETTING UP AND CLEANING UP FOR MEALS

- The person(s) providing the meal is responsible for setting it up at their scheduled time.
- The person(s) providing the meal and/or their student(s) are responsible for cleaning up the kitchen and ensuring leftovers are stored after the meal. Students can get help from other students if they are left solely responsible.
- Meal Schedules
  - Please have meals setup and ready to serve at the following times:
    - Saturday Lunch: 12:30pm
    - Saturday Dinner: 5:30pm
    - Sunday Dinner: 5:30pm

### SUGGESTIONS FOR MEALS

- A list of suggestions will be provided on the signup sheet. Feel free to go outside the list. The team is grateful to have a hot meal and in general not picky!

### NOTES ABOUT FOOD ALLERGENS AND PREFERENCES

- The Team cannot guarantee that every food item will be free of all allergens. Mentors will **not** be policing this. It is up to the students and/or mentor affected to monitor their food intake and stay aware of allergens. We do have a member with a severe peanut allergy, so it is helpful to disclose if your meal contains nut/peanuts.
- Those with special food needs or preferences should check the meal signup sheet ahead of time to ensure they are able to eat what is being brought in. If not, please plan accordingly.
